

## Mother's Day Face-to-face Meeting

Hsinchu Prison, agency of Corrections, Ministry of Justice and Taiwan After-care Association jointly organized "Mother's Day Face-to-face Meeting" activity on May 5. A total of 232 inmates and their family participated in this activity. To consider the homesick of inmates and make them enjoy the Mother's Day with their family, Taiwan After-care Association especially provided carnations for inmates' family members, and it showed the charity principle of prison.

The support from the family was the key of inmates' self-reliance. We hoped the society could give more encouragement and positive responses to the inmates, and the inmates should keep their nose clean for their family and the society in return. In the activity, we publicized the concept of denying corruption by the film, "Against corruption is in everywhere".

In the activity, the inmates talked to their family with smile, and there were also touching pictures of hugs with tears. The activity ended 16 am.
